China Compulsory Certification (CCC Mark)

As a global supplier of electronic and electrical components, Hammond Manufacturing is aware of many international product safety and marking requirements.

Hammond Manufacturing does not currently have the China CCC mark on any of our products.

Please note that most of our product groups do not fall under the scope of the China CCC regulations, with the exception of our power transformer products.

There are many resources available on the internet to determine the scope of China CCC, including: <http://www.ccc-certificate.org/en/>.

If you have any questions on Hammond products and the CCC mark please contact Ross Hammond at rnhammond@hammfg.com.

Sincerely,

Ross Hammond
Compliance Manager
Hammond Manufacturing
